

Adirondac

2330 Sq. Ft.

This stunning home remains one of our most popular designs. The vaulted great room is a favorite highlight, the focal point of which is a custom staircase wrapping around the fireplace. The spacious chef's kitchen overlooks a formal dining room adjacent to the great room. The master suite includes a full ensuite and an impressive walk-in closet. Located upstairs are two bedrooms, a full bathroom and walkways that overlook the foyer, dining room and great room.
