

The Adirondac

2,330 SQ. FT.

This stunning design has been our most popular home for several years running. The vaulted great room is a favorite highlight, whose focal point is a custom staircase wrapping around the fireplace. The spacious chef's kitchen overlooks a formal dining room adjacent to the great room.

The master suite includes a full ensuite and an impressive walk-in closet.

Located upstairs are two bedrooms, a full bathroom and walkways that overlook the foyer, dining room and great room.
